ST3 neurology recruitment – shortlist score distribution 2019 (round 1)

The graph below shows the distribution of shortlist scores awarded to all neurology applications submitted in 2019 ST3 recruitment round 1.

The number of unique applications progressed to the shortlisting stage was 127; shortlist scores ranged from 11-72 (min and max possible were 0-80). Mean and median averages achieved were 41 (41.21) and 42 respectively.
ST3 neurology recruitment – shortlist score distribution 2018 (round 1)

The graph below shows the distribution of shortlist scores awarded to all neurology applications submitted in 2018 ST3 recruitment round 1.

The number of unique applications progressed to the shortlisting stage was 125; shortlist scores ranged from 19-79 (min and max possible were 0-80). Mean and median averages achieved were 46 (45.78) and 46 respectively.
ST3 neurology recruitment – shortlist score distribution 2018 (round 2)

The graph below shows the distribution of shortlist scores awarded to all neurology applications submitted in 2018 ST3 recruitment round 2.

The number of unique applications progressed to the shortlisting stage was 42; shortlist scores ranged from 16-80 (min and max possible were 0-80).

Mean and median averages achieved were 42 (41.88) and 43 respectively.
The graph below shows the distribution of shortlist scores awarded to all clinical genetics applications submitted in 2017 ST3 recruitment round 1.

The number of applications submitted was 113; shortlist scores ranged from 22-73 (min and max possible were 0-78).

Mean and median averages achieved were 48 (48.36) and 49 respectively.
The graph below shows the distribution of shortlist scores awarded to all neurology applications submitted in 2017 ST3 recruitment round 2.

The number of applications submitted was 37; shortlist scores ranged from 18-69 (min and max possible were 0-80).

Mean and median averages achieved were 44 (44.42) and 42 respectively.
ST3 neurology recruitment – shortlist score distribution 2016 (round 1)

The graph below shows the distribution of shortlist scores awarded to all neurology applications submitted in 2016 ST3 recruitment round 1.

The number of applications submitted was 167; shortlist scores ranged from 13-73 (min and max possible were 0-78).

Mean and median averages achieved were 47 (47.58) and 50 respectively.
ST3 neurology recruitment – shortlist score distribution 2016 (round 2)

The graph below shows the distribution of shortlist scores awarded to all neurology applications submitted in 2016 ST3 Recruitment round 2.

The number of applications submitted was 42; shortlist scores ranged from 19-75 (min and max possible were 0-78).

Mean and median averages achieved were 46 (45.85) and 47.5 respectively.
The graph below shows the distribution of shortlist scores awarded to all neurology applications submitted in 2015 ST3 recruitment round 1.

The number of applications submitted was 98; shortlist scores ranged from 15-74 (min and max possible were 0-78).

Mean and median averages achieved were 49 (48.58) and 50 respectively.
ST3 neurology recruitment – shortlist score distribution 2015 (round 2)

The graph below shows the distribution of shortlist scores awarded to all neurology applications submitted in 2015 ST3 recruitment round 2.

The number of applications submitted was 30; shortlist scores ranged from 16-71 (min and max possible were 0-78).

Mean and median averages achieved were 48 (48.43) and 52 respectively.
ST3 neurology recruitment – shortlist score distribution 2014 (round 1)

The graph below shows the distribution of shortlist scores awarded to all neurology applications submitted in 2014 ST3 recruitment round 1.

The number of applications submitted was 110; SL scores ranged from 17-70 (min and max possible were 0-78).

Mean and median averages achieved were 45 (44.54) and 45 respectively.
The graph below shows the distribution of shortlist scores awarded to all 2014 neurology applications submitted in 2014 ST3 recruitment round 2.

The number of applications submitted was 34; shortlist scores ranged from 15-63 (min and max possible were 0-78).

Mean and median averages achieved were 43 (42.65) and 45 respectively.
The graph below shows the distribution of shortlist scores awarded to all neurology applications submitted in 2013 ST3 recruitment round 1.

The number of applications submitted was 117; SL scores ranged from 15-74 (min and max possible were 0-78).

Mean and median averages achieved were 42 (42.34) and 42 respectively.
ST3 neurology recruitment – shortlist score distribution 2013 (round 2)

The graph below shows the distribution of shortlist scores awarded to all neurology applications submitted in 2013 ST3 recruitment round 2.

The number of applications submitted was 28; SL scores ranged from 15-65 (min and max possible were 0-78).

Mean and median averages achieved were 42 (41.71) and 41 respectively.
